Great repository names are

Your new repository will be created as yazil-mproje : supreme-waddle.

Description (optional)

☒  **Public**
Anyone can see this repository. You choose who can commit.

☐  **Private**
You choose who can see and commit to this repository.

☐ **Initialize this repository with a README**
This will let you immediately clone the repository to your computer. Skip this step if you're importing an existing repository.

Add .gitignore: None ▾

Create repository

-Projede yapılan değişiklikler eclipse üzerinden commit edildi.

-Proje kodları

```

import java.io.IOException;

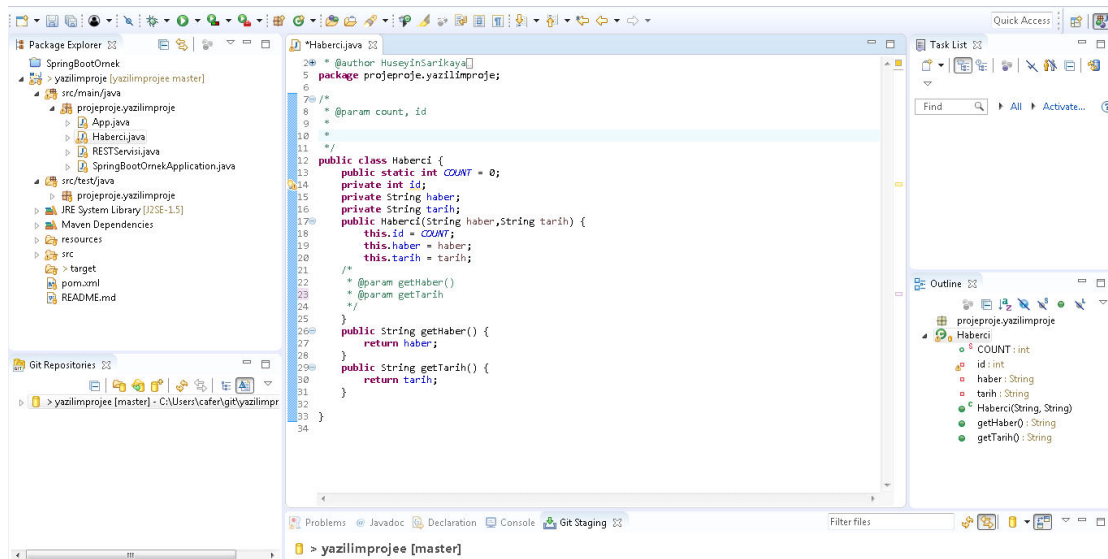

public class WebServisTest {

    public static void main(String[] args) {
        OkHttpClient client = new OkHttpClient();

        Request request = new Request.Builder()
            .url("http://localhost:8888/haberci/olustur?haber=ArabaKazasi")
            .get()
            .addHeader("cache-control", "no-cache")
            .addHeader("postman-token", "cf587d5f-e520-fcc7-027c-ea6f1187d851")
            .build();

        try {
            Response response = client.newCall(request).execute();
            System.out.println(response.body().string());
        } catch (IOException e) {
            System.out.println("Hata: " + e);
        }
    }
}

```

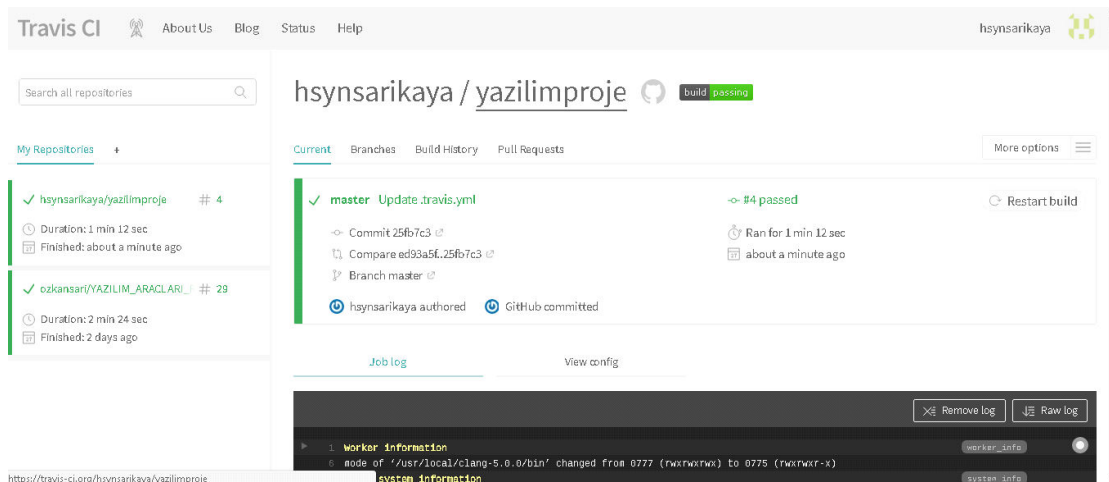

```
RESTServisi.java WebServisTest.java Haberci.java SpringBootOrnekApplication.java
1 package projeproje.yazilimproje;
2
3
4 import org.springframework.boot.SpringApplication;
5
6
7 @SpringBootApplication
8 public class SpringBootOrnekApplication {
9
10     public static void main(String[] args) {
11         SpringApplication.run(SpringBootOrnekApplication.class, args);
12     }
13 }
```

-Proje bir springboot projesi çalıştığında bu sonuçları verdi.

```
localhost:8080/haberci/olustur?haber=Hırsızlık

Quality Model

🐛 **Bugs** track code that is demonstrably wrong or highly likely to yield unexpected behavior.

🛡 **Vulnerabilities** are raised on code that is potentially vulnerable to exploitation by hackers.

🗨 **Code Smells** will confuse maintainers or give them pause. They are measured primarily in terms of the time they will take to fix.
